

Comparative Legal Traditions, Text, Materials and Cases on Western Law (American Casebook Series)

This new edition includes some significant revisions since the last edition was published in 2007. In addition to updating the materials to take into account developments in the law in the examined jurisdictions, the new edition also places discussion of the relevant regional law, for the most part European Union and Council of Europe law, within the examinations of the specific legal systems themselves (more accurately reflecting the realities of operating within those systems). In addition, there are updates and addition to the in-depth chapters focusing on discrete comparative problems and exercises.
