

## Jackie Chan (Pocket Essential series)

Pocket Essentials is a dynamic series of books that are concise, lively, and easy to read. Packed with facts as well as expert opinions, each book has all the key information you need to know about such popular topics as film, television, cult fiction, history, and more. Most people associate Jackie Chan with the recent smash hit films *Rush Hour* and *Rumble in the Bronx*, but there is a lot more of him to see. Jackie learned his trade from the harsh world of Peking Opera School and began to appear in films as a child. He slowly progressed from minor roles to becoming a head stuntman and eventually lead actor in a number of kung fu movies in the 1970s. It was only when he began to direct his own films that the real Jackie Chan film was born. This book looks at his life and career, reviews and analyzes his films, and provides references for further study.
