

KamaSutra: The Art of making Love

IN the literature of all countries there will be found a certain number of works treating especially of love. Everywhere the subject is dealt with differently, and from various points of view. In the present publication it is proposed to give a complete translation of what is considered the standard work on love in Sanscrit literature, and which is called the `Vatsyayana Kama Sutra, or Aphorisms on Love, by Vatsyayana. While the introduction will deal with the evidence concerning the date of the writing, and the commentaries written upon it, the chapters following the introduction will give a translation of the work itself. It is, however, advisable to furnish here a brief analysis of works of the same nature, prepared by authors who lived and wrote years after Vatsyayana had passed away, but who still considered him as the great authority, and always quoted him as the chief guide to Hindoo erotic literature.
