

My Einstein

In this fascinating volume, today's foremost scientists discuss their own versions and visions of Einstein: how he has influenced their worldviews, their ideas, their science, and their professional and personal lives. These twenty-four essays are a testament to the power of scientific legacy and are essential reading for scientist and layperson alike. Contributors include: Roger Highfield on the Einstein myth, John Archibald Wheeler on his meetings with Einstein, Gino C. Segre, Lee Smolin, and Anton Zeilinger on Einstein's difficulties with quantum theory, Leon M. Lederman on the special theory of relativity, Frank J. Tipler on why Einstein should be seen as a scientific reactionary rather than a scientific revolutionary.
