

## Pheneas speaks: Direct spirit communications in the family circle

PREFACE IT is no easy task to edit such a volume of home-circle communications. They are in their very nature so intimate and personal that one has a hesitation in presenting them to the world, and yet some of the teaching is so helpful that it was clearly meant for a wider circle. It is impossible, however, to confine the account to such passages, as to do so would be to lose that setting of beautiful comradeship which concerns itself with the smaller things of life as well as with the greater, and turns the Communicator into a dear brother as well as an august teacher. Our family life would lose something very precious and essential if the bright presence of Pheneas were withdrawn. This, however, is a calamity which, we are assured, will never occur. Great excisions have to be made in this record. A large part of them consist of prophecies as to the immediate future of the world. All this must wait until its publication should seem advisable, and may form a second volume in the future. Let it be briefly stated in regard to them that any earth changes are remedial, and introductory to the happiest era which has ever been known.
