

Racing Silver Arrows: Mercedes-Benz Versus Auto Union 1934-1939

Grand Prix racing between the German Mercedes-Benz and Auto Union teams during the six years from 1934 through 1939 was probably one of the greatest, most spectacular and most important era in motor racing history. The two German teams almost completely dominated Grand Prix racing, mainly because of their technical superiority. Vast sums of money was paid to them by the German government. The side effects were that while Mercedes-Benz developed and manufactured aero engines for the Luftwaffe, the Auto Union Group manufactured tanks and other armored vehicles for the Wehrmacht.
