Este es un libro acerca de como tomar el empleo en nuevas direcciones, sobre como negociar el laberinto de opciones, la forma de pensar acerca de las ambiciones y motivaciones personales, y en ultima instancia, la forma de tomar medidas concretas para la busqueda de una carrera satisfactoria. Sin ignorar los puntos de vista de la psicologia o la necesidad de una planificacion practica, nos revela la sabiduria sobre el trabajo encontrado en sociologia, historia, literatura, cine y filosofia. / This is a book about how to take working life in new directions how to negotiate the labyrinth of choices, how to think about personal ambitions and motivations, and ultimately how to take concrete steps to finding a fulfilling career. It is a self-help book with a difference. Standard career guides are filled with pop psychology and bullet-point advice for writing CVs and making action plans, but How to Find Fulfilling Work casts its net wider. While not ignoring the insights of psychology or the need for practical planning, it reveals wisdom about work found in sociology, history, literature, film and philosophy.
