

The Mabinogion (illustrated)

This is Lady Guest's translation of the Mabinogion. The Mabinogion is a cycle of Welsh legends collected in the Red Book of Hergest, a manuscript which is in the library of Oxford University. Mabinogion means tales of youth; although this appellation only applies to a few of the stories, Lady Guest appropriated it as the title of this book, and The Mabinogion is now used as the name of the entire collection. The stories are based on historical characters and incidents from the dark ages in Wales and environs, embellished with supernatural and folklore elements. Throughout there are echoes of primordial Celtic mythology and folklore, including the ancient gods and goddesses. The first five tales are Welsh versions of incidents from the Arthurian canon. The Mabinogion per se consists of the four connected narratives (called the branches) from Pwll, Prince of Dyved, through Math, the Son of Mathonwy. Following these are three additional stories, including the legend of one of the most famous bards of Wales, Taliesin. The Mabinogion is one of the masterpieces of world literature, and a must-read for anyone who wants to have an understanding of Celtic lore.
