It is sure to become a favorite volume for those seeking to better understand and benefit from Jesus teachings. Jesus was a teacher who taught as the occasion served; he was not a systematic teacher. Jesus taught not so much from the law as from life, by parables. This was especially true during the last year of his public ministry as the parable allowed him to present new and startling truths to those who desired to know the better way while at the same time affording his enemies less opportunity to find cause for offense and for accusations against him. These parables represent a mighty storehouse of moral and spiritual teachings which have come down through the ages unblemished by the doctrines and dogmas of men. They are, quite simply, a pearl of great price.
