

# Trading and Investing in Crude Oil for Beginners 2016 Edition (Beginner Investor and Trader series)

Trading in general is challenging for most new traders because they simply don't have tools or confidence to become successful. Trading and investing in crude oil presents challenges that are not common in other instruments due to the many variables that are involved with its price movement. Trading and Investing in Crude Oil for Beginners is important for self-directed beginners because it tells it like it is and gives an inside look at the this market, giving you the reality on what the market is really like. Let's face it, it's a well-known fact that 97% of brand new self-directed investors and traders fail and lose all of their money. In crude oil investing and trading your trading capital can vanish right before your very eyes should you not be prepared and not have a plan to deal with the brutality and volatility of the crude oil market. Most trading shown in books, video training and webinars these days is taught not only unrealistically it shows you information you really don't need and that cannot help you have an edge and there is a lot of information herding that goes on in the crude oil market. This book is for self-directed beginners and will detail many of the things that a brand new trader must learn to do before they can become consistently profitable in the live crude oil market. The markets, especially crude oil only work on supply and demand and that's it. You don't need any fancy indicators to tell you that price is up or down because you can see it right on the chart. What you do need to know is where the smart money is working so you can make money with them instead of try to trade against them. Trading and Investing in Crude Oil for Beginners is going to give you a chance to do that if you do what it says and follow the advice. You've heard the saying buy low sell high right? Right now in 2016 is the time to do exactly that and Trading and Investing in Crude Oil for Beginners has a few ways in which a brand new

self-directed beginner can get into the crude oil sector in their portfolio. The learning curve in the crude oil trading business and it is a business can be long, brutal and very very expensive if learned the wrong way. Dont be that trader! Trading and Investing in Crude Oil for Beginners aims to tell you how do study it the right way the first time and greatly reduce that long learning curve by showing you what the crude oil market is really made of and who are actually in control of it and when they are in control of it. When you have this information and can see it on a live price chart in real time and pull the trigger without hesitation you can make a lot of damn money and Trading and Investing in Crude Oil for Beginners can get any brand new self-directed beginner on their way to doing that as long as they are well capitalized and have their rule based core strategy for trading and investing in crude oil down pat!
